- Self-adhesive using a high-quality synthetic paper with a low-tack UV hot melt adhesion layer
- PVC-free, residue-free, and recyclable
- Lifespan 6 months indoor, 6 months outdoor
- Facestock material: PP

Why choose STATIC?

Why choose GRIP?

Why choose DOTS?

Why choose PAPTIC?

Why choose XTAC?

Seeking a fuss-free installation with no mess? You should definitely go STATIC!

Need a stronger adhesion leaving no residue? Grip is your choice!

Need a neat, **bubble-free** application for large pieces without professional installers? DOTS is the answer!

Looking for a fully **plastic-free** and PVC-free alternative to traditional paper stickers that comes off cleanly in one piece?

Seeking a PVC-free, removable, and replaceable advertisement solution with **vivid and crisp printed images**?

Easy to apply and remove, due to its **static charge**, STATIC ensures bubble-free application without professional installers.

Easy to apply and remove, GRIP features a highly stable **silicone adhesion layer** that works reliably across a wide temperature range, from -30°C to 110°C.

Very easy to install and remove, DOTS features a silicone adhesion layer with a unique "snake skin" pattern. This design allows for high-quality printing without visible pattern marks post-installation, unlike other dotted products.

PAPTIC represents the new generation of paper, reinvented for cleaner and more sustainable applications.

XTAC utilizes high-quality synthetic paper facestock for superior results, ensuring your advertisements are easily applied, removed, and replaced without leaving any residue.

Adheres to various smooth surfaces; smoother surfaces mean stronger adhesion.

Adheres to very smooth and clean surfaces.

Ideal for retail advertising, events, and exhibitions, DOTS is particularly popular in industries such as healthcare, pharmaceuticals, food and beverage, and for promotional items and stickers.

Perfect for point-of-sale advertising, fast-moving campaigns, and quick turnover promotions, PAPTIC is ideal for businesses committed to sustainability and high-quality presentation, such as natural beauty and care brands, cosmetics, organic products, pharmacies, healthcare providers, events, trade shows, and exhibitions.

Ideal for printers in offices and for temporary signage printing, as well as for temporary promotions and informative signs in locations such as restaurants. It excels in creating removable window graphics, impactful in-store advertising, and enhancing glass freezer and cooler doors promotions.
