Why choose STATIC?	Why choose GRIP?	Why choose DOTS?	Why choose PAPTIC?	Why choose XTAC?
<p>Seeking a fuss-free installation with no mess? You should definitely go STATIC!</p> <p>Easy to apply and remove, due to its static charge, STATIC ensures bubble-free application without professional installers.</p> <p>Adheres to various smooth surfaces; smoother surfaces mean stronger adhesion.</p> <p>Perfect for short and mid-term ads, promotions, and decorations with quick turnover. Suitable for sensitive surfaces like TV screens and white-label products, and ideal for retail ads in beverages, frozen food, ice creams, pharmaceuticals, and seasonal promotions.</p>	<p>Need a stronger adhesion leaving no residue? Grip is your choice!</p> <p>Easy to apply and remove, GRIP features a highly stable silicone adhesion layer that works reliably across a wide temperature range, from -30°C to 110°C.</p> <p>Adheres to very smooth and clean surfaces.</p> <p>GRIP is ideal for retail advertising, promotions, and decorations. It excels in various applications such as window graphics, vending machines, sports equipment, beverages, promotional items, stickers, retail decor, and showcase rooms.</p>	<p>Need a neat, bubble-free application for large pieces without professional installers? DOTS is the answer!</p> <p>Very easy to install and remove, DOTS features a silicone adhesion layer with a unique "snake skin" pattern. This design allows for high-quality printing without visible pattern marks post-installation, unlike other dotted products.</p> <p>Ideal for retail advertising, events, and exhibitions, DOTS is particularly popular in industries such as healthcare, pharmaceuticals, food and beverage, and for promotional items and stickers.</p>	<p>Looking for a fully plastic-free and PVC-free alternative to traditional paper stickers that comes off cleanly in one piece?</p> <p>PAPTIC represents the new generation of paper, reinvented for cleaner and more sustainable applications.</p> <p>Perfect for point-of-sale advertising, fast-moving campaigns, and quick turnover promotions, PAPTIC is ideal for businesses committed to sustainability and high-quality presentation, such as natural beauty and care brands, cosmetics, organic products, pharmacies, healthcare providers, events, trade shows, and exhibitions.</p>	<p>Seeking a PVC-free, removable, and replaceable advertisement solution with vivid and crisp printed images?</p> <p>XTAC utilizes high-quality synthetic paper facestock for superior results, ensuring your advertisements are easily applied, removed, and replaced without leaving any residue.</p> <p>Ideal for printers in offices and for temporary signage printing, as well as for temporary promotions and informative signs in locations such as restaurants. It excels in creating removable window graphics, impactful in-store advertising, and enhancing glass freezer and cooler doors promotions.</p>
